

Spokane to Omak

Support New Intercity Bus Route to Meet Rural Mobility Needs

This map depicts a new Travel Washington intercity bus route connecting Omak and Spokane with a one-seat ride. This map is from WSDOT's 2024 *Travel Washington Intercity Bus Program* plan update. The route was a secondary priority and not recommended for funding in 2024-26.

WSDOT will update that plan again in 2027-28. This route would address several unmet needs identified in the HSTP. It would make it much easier for rural residents to access health, VA, and major travel hubs in Spokane. OCOG supports funding for this new intercity route.
